

AT PSG RICHARD FLANAGAN WE RELISH TACKLING BIG INFRASTRUCTURE PROJECTS SUCH AS CORRECTIONAL FACILITIES AND WASTE WATER TREATMENT PLANTS. WE LIKE A CHALLENGE /

OUR SERVICES /

Electrical Contracting /
Voice and Data Communications /
General Service and
Maintenance /
Security /
Process Control and Instrumentation /
Solar PV Systems /
High Voltage Reticulation /
Energy Management Services /
Thermographic Surveys /

OUR DIVERSITY IS REFLECTED IN THE FACT THAT MANY OF OUR PROJECTS HAVE BEEN COMPLETED ON A DESIGN AND CONSTRUCT BASIS.

Founded in 1987, the company's mission was to become the most highly respected and quality driven company in Queensland. The first project was the Bond University Building FO1.

With particular expertise in large scale infrastructure, we have completed landmark developments in tourism, correctional and healthcare facilities, waste water treatment and many other projects for both public and private clients.

Now, after 20 years of participation and service to the building, construction and engineering fraternity of Queensland, there is no doubt that the vision has been achieved. Due to our strong corporate focus on the training and up-skilling of staff, our company has built a talented and dedicated workforce, capable of providing a wide range of electrical services.

These capabilities, combined with our commitment to safety and community benefit, have led to our company being chosen to partner in major public works within Queensland.

In 2006, Richard Flanagan and Company joined Pacific Services Group Pty Ltd (PSG) in order to benefit from the strength of a national group. This move better allows the company to take advantage of the rapidly expanding Queensland market.

The successful outcome of partnering projects has also paved the way for PSG Richard Flanagan to enter into alliance contracts to deliver essential infrastructure for Southeast Queensland.

With operations now in New South Wales, Tasmania, Victoria, South Australia and Queensland, PSG specialise in design, manufacture, installation and servicing of commercial and industrial electrical and communications projects.

PSG currently has over 1000 employees with an annual turnover exceeding \$300million.
